Call for Papers

The **9th Mediterranean Conference on Information Systems** will be held in **Samos on 3-5 October 2015**, organized by the Information Systems Laboratory (ISL) of the Department of Information and Communication Systems Engineering, of the University of the Aegean, under the auspices of Association of Information Systems (AIS).

The main theme of this year's Conference is "*Information Systems in a changing economy and society*", reflecting the critical role Information Systems play for enterprises and administrations, in their effort to accommodate radical economic and societal changes. The Mediterranean Conference on Information Systems (MCIS) aims to encourage and inspire innovative and informative IS research that is relevant to the social, economic and cultural particularities of the Mediterranean region, raise the visibility of IS-related research practice, education and policy carried out in the Med. Region and bring together researchers, educators, policy makers and practitioners originating from, or working in the region, thus engaging junior and more experienced members of the Mediterranean IS community in a creative dialogue. MCIS 2015 solicits original contributions in the following non-exclusive tracks:

Tracks

- IS and Organizations
- Smart cities
- Big data, data protection and privacy in a global society
- Electronic Government (GOV 2.0)
- Persuasive Information Systems
- Project Management and Beyond – accommodation of the critical role of information systems
- Open Innovation & Knowledge Management
- Security of Information and IS
- Digital Entrepreneurship and the Future Enterprise
- Crypto-Currencies and Digital Payment Systems

Paper Submission

We invite research papers that present original contributions to the theme of the conference or the themes of the special tracks in the form of:

- Full research papers
- Extended abstracts and short research-in-progress papers
- Case studies (research and teaching)
- Panel proposals

Completed research papers are full-length papers (up to 12 pages) of completed research projects. Accepted completed research papers will be presented at MCIS 2015 and published in the proceedings. Research in progress papers are up to 7 pages, developed from promising but incomplete research projects that will benefit from the feedback of other MCIS participants.

Submissions must be original and should not have been published previously. Papers should be submitted in English, electronically as pdf files via EasyChair: <https://easychair.org/conferences/?conf=mcis2015>

Authors should indicate the track for which they wish their paper to be considered. If no track is indicated the paper will be considered for the conference main track. Submissions will be subjected to peer review. Each accepted paper should be presented by one of the authors and accompanied by at least one full registration fee payment, to guarantee publication in the proceedings. MCIS is a major international conference on Information Systems, endorsed by the American Information Society (AIS) and its proceedings are published in the AIS library and indexed in all major scientific indexes.

Extended versions of the best papers will be invited for publication in journal special issues.
