

Letter of Intent

**Verana D4, Entrance C and D
Str. Kalabria (Road to Veternik)
10000, Prishtina, Kosovo**

November 23rd, 2016

ERASMUS+ National Offices

To whom it may concern:

This letter is intended as a follow-up to the opened call of ERASMUS+ Programme of the date 15/10/2017 (https://ec.europa.eu/programmes/erasmus-plus/calls-for-proposals-tenders/2016-eac-a03_en).

The Heimerer College (EU-PIC 946596617) is an HEI from Kosovo that offers innovative and missing undergraduate and graduate degrees in the field of Health Sciences, in accordance with the respective EU standards (attached to this email/letter, you may the description of our Institution and academic programs that we offer).

Through this letter we intended to express our strong interest for cooperating with HEIs and other relevant organizations i.e. rehabilitation centers, in your country in terms of institutional building, mobility and Jean Monnet activities. We would like to emphasize the fact that we are rather opened/flexible to cooperate on different projects and settings eligible under ERASMUS+, International Dimension component.

We express our interest to cooperate in terms of, but not limited to:

- jointly designing/developing projects proposals (especially those presented below) and implementing them in case they get rewarded, and
- joining various consortiums for implementing projects relevant to the profile of our Institution

Our proposals for such cooperation are, but not limited to:

1. Master of Science Program in Therapeutic (Health) Sciences
 - **Brief description of the project:** jointly design/develop the project proposal and deliver it if rewarded, a programme corresponding to 60, 90 or 120 ECTS credits, organized through an international consortium of HEIs including the participation of invited scholars (guest lecturers) for teaching, training and/or research purposes. As a two a two year graduate a joint or multiple master degree, it would give students the opportunity to further sharpen their understanding (during the first year) of the foundations of the health sciences, but also specialize (during the second year) on different specializations (primarily in those areas that we offer undergraduate degrees - please consult the Description of Institution and Programs)

- **Type of the ERASMUS + Programme:** Key Action 1 –Mobility of Individuals - Erasmus Mundus Joint Master Degrees Program
- **Type of the Project Consortium:** National or Multi-country Joint Project

2. Bachelor Program in Health Psychology

- **Brief description of the project:** jointly design/develop and implement the project proposal of a three year undergraduate program that would give students the opportunity to gain foundational knowledge in psychology and health sciences expect to examine how psychological factors influence physical conditions.
- **Type of the ERASMUS + Programme:** Key Action 2 – Cooperation for Innovation and the exchange of good practices
- **Type of the Project Consortium:** Multi-country Joint Project

3. Bachelor Program in Physiotherapy

- **Brief description of the project:** jointly design/develop and implement the project proposal of a three year undergraduate program that would give students the opportunity to gain an extensive understanding of physical, structural and physiological aspects of human form and movement, as well as factors relating to human functioning and the acquisition of skill.
- **Type of the ERASMUS + Programme:** Key Action 2 - Cooperation for Innovation and the exchange of good practices
- **Type of the Project Consortium:** Multi-country Joint Project

4. Center of Multidisciplinary Health Care Center

- **Brief description of the project:** Through establishing such a Center we intend to utilize our expertise and other available resources to fill various identified gaps within the Health Sector in Kosovo and the region. On this regard, it shall serve two main roles: first, as a practicing hub for professionals as well as graduate and undergraduate students to exercise their skills and gain hands-on experiences, respectively, second, a hub for offering and generating relevant health care skills. Its unique identify is strengthened through its patients multidisciplinary assessment/evaluation approach and continual offering of health care services for them, and international dimension of cooperating with similar international partner-organizations.
- **Type of the ERASMUS + Programme:** Key Action 2 - Cooperation for Innovation and the exchange of good practices
- **Type of the Project Consortium:** Multi-country Joint Project

5. Research related to the health and life learning policy

- **Brief description of the project:** joint research on the effectiveness of the relevant policies within the EU tackling issues such as social inclusion of emigrants, with a particular focus in the health system, labor market and education/schooling.
- **Type of the ERASMUS + Programme:** Jean Monnet activities
- **Type of the Project Consortium:** Multi-country Joint Project

Lastly, having in mind the timetable set by the ERASMUS+ and work required for preparing the respective documents for application, we would like to kindly ask you to share this Letter of ours to the relevant HEIs and other potential partners in your county as early as possible!

Sincerely yours,

Adnan Hoxha
