March 14, 2018

Dear Partner Universities,

Warmest greetings from Korea Maritime and Ocean University,

We are very pleased to inform you that the Center for International Affairs of Korea Maritime and Ocean University will hold the International Summer School 2018 from July 23 to August 3, 2018. This summer school aims to promote international exchange with our partner universities and AMFUF member institutions at the undergraduate level. This program will provide participants with not only various hands-on learning experiences about up-to-date ocean research/education in KMOU, but also interaction with Korean students, and authentic cultural experiences in Korea. We welcome your undergraduate students to our summer school and look forward to hosting them. As for more information on our summer program, please refer to the attached files.

If you have any concerns or inquiries, please feel free to contact us via email to [cofa@kmou.ac.kr](mailto:cofa@kmou.ac.kr).

Thank you and we look forward to receiving applications from your university.

A handwritten signature in black ink that reads "chung".
