Summer School and Workshop on Rheology - RheoSamos2024

SCHOOL OF SCIENCES - Department of Mathematics
5 Jul 2024 to 13 Jul 2024 | Samos

Scientific Coordinator: Kostas Housiadas, Professor, Department of
Mathematics, University of the Aegean.

The summer school/Workshop is organized by the Department of Mathematics of the University of the Aegean, in cooperation with the Hellenic Society of Rheology (HSR).

The event is open to all M.Sc. and Ph.D. students, post-docs, scientists, and engineers conducting research or interested in the field of rheology and fluid mechanics. The program will consist of 6 short courses, 2 seminars, invited lectures, a poster session and a limited number of oral presentations. All topics in theoretical, computational, and experimental rheology are welcome.

The main focus of this summer school is to bring together young students, scientists and researchers at the early stages of their career in the rheology field. We will equivalently emphasize in both experimental and theoretical rheology. We also aim to give an international dimension to the summer school by gathering students, scientists and engineers who are working in the field of rheology from universities, research centers, and industries from all over the world. The participants will also be able to report and interact with each other on the most recent advances in the field.
