#YourOpportunity

If you understand the very real dangers cyber threats pose and embrace the challenge of helping keep people and networks safe, then Deloitte Cyber is the right place to develop your career. We offer a wide range of opportunities to work with industry-leading clients and projects — and the technological resources to help them tackle their biggest challenges.

A role with Deloitte Cyber, isn't just a career. It's a calling. To help make the world more trustworthy, resilient, and secure. If you're interested in joining a group of people who don't just want to fix what's broken but want to build something better, apply for a role with Deloitte Cyber.

We are currently seeking Senior professionals with good analytical skills and a well-rounded personality to become part of our dynamic Cyber team. You will build your knowledge and experience working in a team of diverse and talented professionals who enjoy designing and implementing innovative cybersecurity and data protection strategies, for market leading clients in diverse industries (e.g., Financial Services, Energy, Telecommunications Media & Technology, Life Sciences & Healthcare etc.)

You want to be involved in the **definition of new and cutting-edge solutions** to address cybersecurity challenges for the most relevant and prestigious clients across industry verticals.

- You want to work with **inspiring, ambitious, and supportive people** with diverse geographical and academic backgrounds and extensive skills.
- You are a **cyber enthusiast and visionary** and you think that it will shape our future.
- You get excitement in **managing clients shifting priorities** and accomplish tasks in a **challenging, fast-paced** environment.
- You like to **nurture people** and **share your knowledge** with others.

#YourRole

Deloitte's Cyber professionals help organizations focus on enterprise-level cyber risks through a strategic approach. Our services help clients reimagine cyber risk to uncover strategic opportunities aligned with their business priorities — to gain competitive advantage and become more trustworthy, resilient, and secure. We help clients conduct cyber assessments and benchmarking that set a foundation for training and reporting across the organization. And we help them identify potential insider threats and design programs to thwart it. Then we turn the lens toward helping clients modernize their core and traditional/ cloud infrastructures with next-generation security controls that help manage cyber risks and exposure.

You will thrive in a global environment, developing and managing innovative strategic initiatives for customers and collaborating with colleagues belonging to different geographies and backgrounds:

- Manage cybersecurity activities within wider projects, identifying, evaluating, and designing best in class cybersecurity and data protection solutions, demonstrating operational excellence, vision and strategic thinking.
- Execute complex project activities, coach, and support less experienced team members, coordinate part of the team while supporting your more senior colleagues in managing client relations and expectations.
- Manage own work against the project plan to ensure a superior client experience.
- Face and solve customer cybersecurity and data protection technology-driven challenges in innovative and effective way.
- Engage with internal and external stakeholders to strengthen business relations and create business opportunities.
- Receive training and attain certifications in the use of cutting-edge cybersecurity products but also on various cybersecurity and data protection topics.

#WinningRequirements

- Bachelor and/or Master's degree in Information Technology, Computer Science, Cyber Security or equivalent.
- 2-4 years of experience, preferably in a Consulting company
- Relevant professional certifications, such as: CISM, CISSP, CISA, CRISC, CIPM, ISO 27001 Lead Auditor etc. will be considered a plus.
- Solid expertise in Cyber Security Strategies, Cyber Security Assessments, Cyber Security Frameworks, Data Privacy & Protection concepts
- Fluent knowledge of English language
- Passion and curiosity for the cybersecurity industry and technology trends, innovations and frameworks, as well as current IT security technologies
- Be an independent and collaborative person who cooperates in one or more project teams to deliver high quality results
- Possess interpersonal skills and the ability to develop effective and lasting relationships with clients and colleagues.
- Ability to conduct complex analyses and communicate them clearly and concisely to target audiences of different cultures, technical backgrounds and levels of seniority.
- Military obligations fulfilled where applicable.

#ChooseDeloitteif:

- You want to work with inspiring, ambitious, and supportive people with diverse geographical and academic backgrounds and extensive skills.

- You get excitement in managing clients shifting priorities and accomplish tasks in a challenging, fast-paced environment.
- You like to nurture people and share your knowledge with others.
